Seafood Product Frozen Fish

Kualitas dan rasa adalah aspek penting dalam penyajian ikan. Maka dari itu, untuk mempertahankan kualitas produk ikan laut, ikan disimpan di dalam ruangan pendingin yang bersih dan terjaga, juga dimonitor dari waktu ke waktu agar suhu dan keadaan ikan terjaga secara stabil dan konsisten.

The quality and taste are an important aspects for fish presentation. Therefore, to maintain product quality, fish are kept in the clean and monitored coold room, in which the temperature is maintained consistently to maximize fish storage life span.
